

To COSL, China ORES Ltd

**GeoPulse Sub-bottom Profiler**

This letter is to confirm that the 5430A and 5430P transmitter are no longer manufactured by GeoAcoustics and were discontinued from sale earlier this year. We've transferred relative technical documents to our China agent ---China ORES Ltd, who will continue to do necessary technical service in China.

We do continue to manufacture 136P towfish and these are available.

Richard Dowdeswell

General Manager
